NEED TO KNOW PARTICIPANTS:

Karen Harbert, President and CEO, US Chamber: Karen Alderman Harbert is president and chief executive officer of the U.S. Chamber of Commerce's Institute for 21st Century Energy (Institute). Harbert leads the Institute's efforts to build support for meaningful energy action nationally and internationally through policy development, education, and advocacy. Under Harbert's leadership, the Energy Institute has evolved into a premier national and international organization dedicated to advancing a constructive energy agenda with the business community, policymakers, and consumers. Harbert frequently testifies in front of Congress and provides analysis to the media, policymakers, and industry leaders.

Dan Byers, VP of Policy, U.S. Chamber: Dan Byers is vice president for policy at the U.S. Chamber of Commerce's Institute for 21st Century Energy (Energy Institute). Specializing in the intersection of energy-related science, technology and policy, Byers develops policies and strategies related to environmental and regulatory issues, and leads the Energy Institute's efforts to promote and maintain coal's vital role in America's energy system. Byers directs the Chamber in assessing the impact of existing and emerging federal laws and regulations on the U.S. energy industry— particularly on coal-fired energy—and is responsible for building and supporting partnerships that highlight the important role of coal in our nation's energy mix. He frequently writes on energy policy and environmental regulatory issues and regularly speaks to state and local chambers and other business

groups around the nation.
